Authorization for this examiner's amendment was given in a telephone interview with Quin C. Hoellwarth on 10/28/04.

The application has been amended as follows:

- D) In claim 8-line 4, "an exposed" has been changed to – a --.
- E) In claim 8-line 4, after "grounded", -- and exposed to said process region – has been inserted.

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, a plasma confining assembly as claimed, comprising: a first confining element including a conductive surface that is electrically grounded and exposed to the process region, and a second confining element including an exposed insulating surface, which is configured to at least partially cover a non-exposed conductive core that is electrically grounded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
